Parallel a company **INLINE** with your needs

Parts are manufactured from raw stock to finished part in one operation. No manual secondary handling or fixturing is needed. These savings are passed on to you the customer. By taking this approach, we can handle large and small volume orders efficiently through our machining centers

- Small parts
- Large parts
- Low volume
- High volume
- Simple parts
- complex parts
- Single part run
- Family part runs
- Manufacturing R & D
- Live Tooling
- Sub-Spindle
- Lights out Production

- Through Spindle** 0.250 to 3.125 Diameter
- Large Chucking** Up to 10" Diameter
- Length** up to 27.5" depending on the part geometry
- Option** Sub-Spindle \ Y axis +/-2"
- Tooling** Live Drilling and Milling
- Automation** Load/unload, developed as needed
- Materials** All metals, Aluminum, Brass, Copper, Exotics, Tool Steels, Plastics
